To: Central Division

Attention: Chief J. R. Abrames

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.17571.010

Subject: 2010 COMMAND PROPERTY INSPECTION REPORT

State Administrative Manual (SAM) Section 8652 requires Departments to conduct a physical count of all state owned property and reconcile the count with accounting records at least once every three years. Departmental records indicate the last command inventory by Central Division and its nine corresponding Division units was conducted on January 24, 2008. In order to provide independent verification and reasonable assurance to the Office of the Commissioner that California Highway Patrol inventory records are complete and accurate, your command was selected for a property inspection.

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your Division's property, vehicles and weapons was completed by the Property Inspector (PI) from April 13, 2010 through April 15, 2010. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D and E). Additionally, the PI chose items within your Division Office and Division Units and compared them to the appropriate inventory records. The complete property count list (Division office and Division units) is summarized in Attachment G.

According to the OPI inventory lists, the Division office and corresponding Division units had a combined total property inventory population of 2,297 items (a). The statistically-valid sample at a 95 percent confidence level \pm 5 percent error rate provided a total stratified sample size of 364 items when rounded up to the next whole number (d). The stratified totals for the Division office and Division units are summarized in Attachment G.

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, 343 of the 364 items were located. Ten items listed on the Division's property list were transferred to other commands, one item was unavailable for inspection due to it being out for calibration and ten items could not be located. The corresponding CHP 266, Credit Memo – Equipment forms, CHP 57, Motor Vehicle Assignment and Transfer forms, and the item packing list are attached for review (see Attachment F). Furthermore, eleven items require replacement decals due to missing and or obliterated numbers. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

When comparing equipment assigned to the command to the OPI inventory lists, 51 of the 51 items inspected reconciled. The property inspection results of the equipment located at the command to the OPI inventory list are summarized in Attachments B, C, D and E.

I request your Division office and units research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A CHP 24, Physical Inventory Adjustment Request form, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections through your respective Division by July 14, 2010, verifying all discrepancies have been addressed.

Furthermore, in accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the CHP's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3162.

One tail test, 95% confidence level +/- 5%

p=94%

Instructions: Type population size in yellow box. Sample size is computed in blue box.

Computation of Sample Size to Test the Accuracy with a 95% Degree of Confidence and a +/- 5% Error Rate on a one-tail test.

Factors for this Case:

Confidence Level	95%
Value re: Standardized Normal Dist'n (Z)	1.645
Proportion of Success (p)	0.94
Acceptable Error Rate (e)	0.05

	Population Size	Computed Sample Size	Actual Sample Size
Sample Size Needed for an Infinite Population		61.05	62
Sample Sizes Needed for a Finite Population:	1,248	58.25	59

Note: To change the error rate, change the number in cell F12 to 0.06 for 6%, 0.08 for 8%, etc.

	Population Size (a)	Percentage of Total (b)	Calculated Sample Size (c)	Predetermined List Sample Size (d)
ICU Decals	425	34.05%	20.09	21
